We offer top quality dock hardware in both aluminum & galvanized steel. Our hot dip galvanized dock hardware is manufactured using 1/4" steel.

Alliance Dock hardware is designed for framing wood dock and connecting dock to dock, and it includes end brackets, inside & outside dock bracket, backup plates, cleat washer, T-connectors, chain retainer, pile guides, pipe holder, fasteners, truss hardware and Galvanized cleats and Aluminium S Cleats with minimum 85µm of hot dip galvanization thickness.

We conduct our business professionally, adhering to strict timelines to ensure the timely delivery of services and products.

**"We Believe
EVERY CLIENT
Is a Valuable
LONG-TERM
Partner"**
